

# Casa Vaquera

TODOS SANTOS

Nestled behind a mature fruit orchard and garden, Casa Vaquera looks out on an expanse of indigenous trees and palms, creating a unique sanctuary.

The main two-bedroom house plus loft was built using traditional methods and locally sourced hardwoods, incorporating rugged stone, mission-style plaster, and hand-hewn antique doors. A more contemporary art studio with palapa covered porch is steps away and can easily be converted to a private guest house or third bedroom.

Additional structures on the property include an ample storage bodega and covered workspace, bath house, and a screened second-story palapa room, perfect for enjoying magnificent sunsets or undisturbed afternoon siestas lulled by the sounds of the ocean and cooled by gentle on-shore breezes.
