ABOUT PESCADERO PARADISE

Whether you are trying to get away or want to come together, this fully enclosed tropical paradise provides everything you need for a perfect, peaceful Baja home-away-from-home.

This property was well thought out from conception to completion, as it utilizes every square foot of the lot, focusing on the complete enjoyment of owners or guests. Multiple buildings provide ample privacy with four beds and four baths spread across three components.

The property is the perfect vacation destination for Baja adventurers, either short-term or for extended stays. The lush grounds blend desert and tropical cover, creating a private, quiet, secure oasis that feels off the beaten path but is right near all the action. It is fully fenced and gated with both car and pedestrian access.
